

Who We Are

Background

Optek Films was created to combat the current market, where the cost of materials for the average shop owner has become so high that turning a profit is nearly impossible. Many other brands offer premium prices justified by unnecessary services for established professionals like training, consulting, or exclusivity. We believe professionals should not be charged a premium price for services they do not want or need.

Our Mission

Here at Optek, we focus on providing the highest quality products at the best price. The founders of Optek are shop owners themselves, and Optek was created with the sole purpose of professionals being able to buy the products they need, receive those products in a timely fashion, and get on with their daily business.

Pro Member Program

Optek Films sell professional grade products solely to professionals. Our verification consists of becoming a Pro Member – a free way to register in our system to buy Optek products.
